THIRD and FINAL CALL FOR PAPERS

Meditari Accountancy Research has held a biennial conference in South Africa since 2014. The conference quickly took a global dimension by holding it in a different country every other year (when not held in South Africa), starting with Italy in 2015 and Japan in 2017. In 2019, the conference will be jointly organized with *Accounting Forum* in **Seoul, South Korea**.

[Meditari Accountancy Research](#), or MedAR “takes its name from the Latin for constantly pondering, suggesting a journey towards a better understanding of accountancy related matters through research. Innovative and interdisciplinary approaches are encouraged”.

[Accounting Forum](#) “promotes greater understanding of the role of business in the global environment, and provides a forum for the intellectual exchange of academic research in business fields, particularly in the accounting profession”.

As such, we invite accounting (and non-accounting) academics from all geographic areas to join us at the **2019 Meditari Accountancy Research / Accounting Forum Joint Conference in Seoul, South Korea** to submit papers and share their ideas on a variety of *interdisciplinary* research topics, with a particular interest in the impacts of business and accounting on society, and vice versa. For this joint conference, we are pleased to welcome our distinguished plenary speakers:

[Professor Giovanna Michelin](#)
University of Exeter, UK

[Professor Marion Brivot](#)
Université Laval, Canada

This conference is sponsored by the Global Research Network program through the Ministry of Education of the Republic of Korea and the National Research Foundation of Korea (NRF-2016S1A2A2912421) and the Erivan K. Haub Chair in Business & Sustainability at the Schulich School of Business, York University, Canada.
